DIMA VOLFOVSKI VORONOV

Boulvard Tashah 2 Rishon Le-Zion	www.linkedin.com/in/Dima-Vornov www.github.com/Dimavo42	053-2296233 dimavoronov95work@gmail.com

Summary

Software Developer with experience designing and developing distributed systems, automation solutions, and microservices-based architectures. Strong background in building automation frameworks and infrastructure using Python, TypeScript, Bash, and Docker. Experienced in backend development, API integration, CI/CD, Microsoft SQL Server, Redis, and Kafka, with a focus on building clean, scalable, reliable, and maintainable software systems.

Experience

Matrix – Fullstack Developer – Mizrahi Tafhote **-** 08/2025- 08/2026

- Developed and maintained scalable backend microservices using NestJS TypeScript. And Node.js.
- Designed and implemented BFF services using Kafka for asynchronous messaging and Redis for caching.
- Worked with React-based frontend applications.

Matrix - Automation Team Lead - Mizrahi Tafhote - 08/2024 - 08/2025

- Led a team of 3 automation engineers responsible for web, API, and mobile automation testing, as well as maintaining and improving automation frameworks.
- Planned automation sprints with QA managers, reviewed technical tasks and solutions, and created and assigned Jira tasks based on project priorities and team requirements.

Matrix - Automation Developer - Mizrahi Tafhote - 02/2024 – 08/2024

- Built automated test infrastructure from scratch using TypeScript, WebdriverIO, and Playwright.
- Developed and maintained automated tests for web, API, and mobile applications, integrated with Jenkins pipelines and Docker.

Matrix - Automation Developer - Philips - 03/2023 - 02/2024

- Maintained C#/SpecFlow-based automated testing infrastructure, including developing new infrastructure components and capabilities.
- Built and maintained Python tools and scripts for SSH-based communication with VMware virtual machines.
- Worked with Microsoft SQL Server to retrieve and validate test data.

Technical Skills

Languages	TypeScript, C#,Python
Backend	Node.js, NestJS, .NET Core
Frontend	React
Cloud	AWS
Databases & Caching	Microsoft SQL Server, Redis
Automation & DevOps	Playwright, Appium, Jenkins, Docker, Kubernetes
Scripting	Bash, PowerShell
AI	LLM Integration, MCP, AI Agents

Professional Courses

AWS Academy Graduate – Advanced Cloud	**40 hours**
Angular complete course – Udemy	**60 hours**
.NET Core complete course - Udemy	**50 hours**

Education

B.Sc. Computer Science, Machine Learning Specialization
Holon Institute of Technology (HIT)
